twitter.com/bsidesmunich

Goals

Exchange

The goal of every BSides event is to create a forum for communication and cooperation. Unlike large conferences, the topics at BSides focus on new emerging innovations and security-related areas. Sponsoring is a way for you to participate actively in this exchange.

Engagement

There are no visitors to BSides, only participants. Everyone can contribute to the conference. All participants should get involved by discussing and exchanging ideas with each other. Topics are based on the interests of the participants, rather than industry buzzwords. It's about more than just information: it's about getting involved and supporting each other in a community.

Target Group

The event is aimed at all those with a passion for and interest in IT security - IT managers, hackers and students alike.

Previous Events

2018

We tripled participation from the previous year: 50 people taking part in Workshops and 180 in the Conference day. The participants were not only from Germany, but also from countries near and far (including Egypt and the UK) - [Report](#). Details can be found at 2018.bsidesmunch.org.

2017

78 people took part in the BSides Conference. They attended ten presentations and three workshops during a total of nine hours. Details can be found at 2017.bsidesmunch.org.

Sponsoring

Advantages

Brand Awareness

Depending on your level of support you will be mentioned on the website, badges, announcements and at the conference and its social media channels. Creative and individual support is also welcome.

Recruiting

You can put yourself in the conference limelight as you search for experts in information security. As a sponsor you have the opportunity to talk directly to experts and hackers about current challenges and developments, and to inspire them.

Media Reporting

Security BSides conferences are known worldwide and have been mentioned in podcasts, blogs and print media. As a sponsor of BSides you will not only be noticed, but you are part of this community. For more information, see <http://www.securitybsides.org/Media>.

Sponsoring Packages

BSidesMunich enables sponsors to establish their own brand within the local security community and to establish close contacts with potential customers.

The following four standard sponsorship packages are available. A logo of your choice will be included in the conference material depending on the sponsoring package.

The sponsoring costs have to be paid six weeks before the conference.
